12.8 - CONTROL PROCEDURES AND TIMECARD HANDLING

The following procedures apply and have priority over all the related provisions in the 2022 FIA RR Sporting Regulations as far as they are in conflict. Some of the conflicting article numbers are quoted below, but without claiming to be exhaustive.

Any irregularity or discrepancies regarding the below procedures will result in the application of RRSR Art. 19.3.4 and 44.2.12. It is to be noted that, as a principle, the entries recorded on the timing marshals' check sheets shall be decisive.

The complete set of Timecards for the whole rally will be delivered with the rally materials at administrative checks. It is imperative for all crews to carry at least all the Timecard sets for a whole day inside the car (cf. for example procedures at regrouping controls).

TIME CONTROLS

- The check-in procedure begins at the moment as stipulated in RRSR Art. 44.2.1.
- The check-in time corresponds to the moment at which the co-driver shows their timecard to the marshal through the side window (RRSR Art. 44.1 & 44.2.4).
- The appropriate marshal will then enter the actual time at which the card was shown on the timing tablet and write it on the check sheet (RRSR Art. 44.2.5).
- They will then show the recorded check-in time and, in case of a Time Control followed by a special stage, the provisional special stage start time to the co-driver. The co-driver shall then enter this time on their timecard (RRSR Art. 44.2.5).

SPECIAL STAGE START

- At the start line, the co-driver shows the appropriate marshal the timecard through the side window. The marshal then either confirms this provisional start time or shows a different start time on his check-sheet.
- This new time, if any, shall then be recorded as actual start time on the timecard by the co-driver (RRSR Art. 48.2.3). This actual start time will also be shown on the electronic start count-down display.

SPECIAL STAGE STOP POINT

- The appropriate marshal at the stop point will show the finish time (time of the day: hour, minute, second, tenth of a second) and the calculated stage time to the crew (co-driver).
- The co-driver shall record this time on their timecard.

REGROUPING CONTROLS (RRSR ART. 46)

- There is no need to hand in the Timecard used for the Section concerned.
- For regroupings during a day, the crews shall themselves record their re-start time from the regroup as instructed by the timing marshal on their new timecard for the following Section of that day.
- In case of an overnight regroup, the crew shall themselves record their re-start time of the following day on their timecard, following the publication of the start list for the section after the overnight regroup.

FLEXI-SERVICE

- The marshal at the time control Technical Zone OUT/Service IN will keep a check sheet and record the start of the permitted service time.
- The marshal at the entrance to the overnight parc fermé will also keep a check sheet to record the time of the car entering the parc fermé.

12.9- OFFICIAL TIME USED DURING THE RALLY

GPS time for Açores. UTC/GMT 0 hours

12.10- RE-START AFTER RETIREMENT

Any car which retires in accordance with the above, may be repaired. However, the car must report to the overnight Parc Fermé, no later than 60 minutes before the scheduled start of 1st of the next Section following the overnight regroup.

The crew will be informed of the time for re-scrutineering.

12.10.1 Information of Intention of no Readmission

Any competitor that intends to retire permanently from the rally must confirm that intention with the Clerk of the Course by completing of the form located in the end of the road book ('No re-start after retirement') and lodging it with the Organizer as soon as possible and, if feasible, before the publication of the re-start list
