- 90 km/h outside the built-up area (if the sign does not show otherwise).
- 80 km/h on the stages

The use of radar detectors is forbidden.

Please note that the Special Stages will not be closed to public traffic during reconnaissance. The organizer may reduce the allowed speed individually by marking the areas in the road book and along the route.

Under no circumstances may competitors drive in the opposite direction of the rally traffic, except in cases described in Recce Road Book but they must maintain an extreme caution. The speed limit on this part of stages during reconnaissance is 40 km/h.

The Organizer will control the Reconnaissance and adherence to the Portuguese Traffic Law as well as the other regulations, especially Art. 34.2 FIA RRSR and this Supplementary Regulations. The crews must show appropriate documents at the request of the organizer's representatives or Police Officers and must execute their instructions and commands. The inspections of the special stages will be conducted on regular basis also before the Reconnaissance. Any member of team (competitor, driver and/or co-driver, support personnel) participating or intending to participate in the rally, which will be found present at the any rally SS route before time of Reconnaissance, will be considered a person performing forbidden Reconnaissance. Considerations should be made to make sure the phone or tablet can be charged and there are no 1st party applications that may disable GPS tracking.~~

~~SAS will distribute individual event access codes during the reconnaissance registration.~~

All competitors will be equipped with a GPS system from Anube for Recce. This equipment doesn't need any preparation/installation from the team. Is just a device you must carry on while you are doing recce. On the stages it will advise the competitor for the maximum speed allowed. We remind, on the stages the maximum speed allowed is 80 km/h. Anube devices will be distributed during the reconnaissance registration.

The progress of the Reconnaissance will be monitored via GPS system, by rally officials. Evaluation of the GPS data is within the competence of Clerk of the Course. Reconnaissance cars not equipped with a working GPS system delivered by organizer will be reported to the Stewards.
