Approved by FIA in 28/10/2020

SUPPLEMENTARY REGULATIONS

Art. 12 - SCRUTINEERING

12.6

to be added...

Participants need to pay particular attention to the following changes:

[...]

- Survival Kit: in accordance with Appendix III of the 2020 FIA CCR SR **and in accordance with Appendix VII to the present regulations.**

- Steering wheel padding

From the 1st of July, the quality of the padding foam to use in all groups is now specified:

Padding in the form of 60-240 g/m² material, with a minimum thickness of 40 mm, must be fitted on the steering wheel over a minimum surface of 20 000 mm² (200 cm²) to protect the driver's face.

Modification applicable as from 01.07.2020:

Padding in the form of ~~60-240 g/m²~~ **CF45M** material (**see technical list n°17**), with a minimum thickness of 40 mm, must be fitted on the steering wheel over a minimum surface of 20 000 mm² (200 cm²) to protect the driver's face.

Please note that the Steering wheel padding material is not very expensive and not so difficult to get, but teams/competitors need to anticipate their purchases as it should be almost impossible to find some on the service park before the race.

Please find also attached the "Technical List No.17."
