- Transponders:

How to install a transponder on a Car

The mounting position of the transponder of a rechargeable or Direct Powered transponder is the same. The position must be identical on all cars competing in the race. Fix the transponder vertically, at a maximum of 60 cm (2 ft) above the track. Make sure that the transponder has a clear view to the track with no metal or carbon fiber underneath. Maximum operating temperature should not exceed 122F/50°C.
